Safe Quality Food Facility

In 2026, Shawmut became SQF certified showing our commitment to quality and safety in the food industry. SQF is a rigorous and credible program that is recognized GFSI (Global Food Safety Initiative). GFSI has approved SQF as one of the benchmarked schemes that meet their stringent requirements for food safety management systems.

Purposeful Partnership

Shawmut partners with Monadnock Paper Mills, a leading sustainable paper supplier, and serves as a test facility for new products. Monadnock is Forest Stewardship Council® (FSC® 018866) certified, supporting our shared commitment to responsible sourcing. In addition to Monadnock, Shawmut works directly with a variety of mills, allowing us to buy rolls straight from the source. These strong relationships enable us to produce high-quality work quickly, efficiently, and with greater flexibility for our clients. Ask about FSC certified products
